Senate Room

CHILD CARE PROGRAM

Saturday, July 11
12 – 8 pm

For children up to the age of 5 years, Joan Fisher, a NYS certified N – 6th grade educator is leading a program to provide your child(ren) with a nurturing and caring environment. Your child(ren) will be in excellent care and have fun with reading time and play time along with regular meals, snacks and nap time. Special baby foods or formula should be provided by you, the parents, if needed.

Other items that should accompany your child to our daycare center are: playpen or portable crib with blankets for napping if needed, favorite toys or "lovies," additional outfits or changes of clothes for accidents or weather variations, diapers and wipes for children not yet using the potty, and strollers or slings/carriers for walks outside. Please remember it is helpful to write your child's name on items you are bringing along in order to identify them for proper return in the event they get lost or misplaced.

The program is located in the Bertrand H. Snell Conference Rooms on the second floor.
