

1 DAY TRIPS

Clarkson Integrator Newspaper Publishing Experience - Interested in writing and photography?

The Clarkson Integrator is the University's student run newspaper that covers different aspects of college life: news, opinion, sports, and entertainment. Come meet current members of the staff and learn what exactly goes into publishing a weekly paper. Layout, photography, and writing workshops will take place to see how all the pieces come together. Fun activities will also be scheduled to get to know Clarkson and what it has to offer.

Mountain Biking with the Cycling Club – Come join the Clarkson Cycling Club as we take you to Whiteface Mountain to experience some of the best mountain biking in the east. Whiteface is primarily a downhill resort, though the lower mountain offers an easier terrain for riders wanting less of a challenge. We'll head out on Thursday morning to ride and come back that night for dinner on campus. Bikes and all protective equipment can be rented at the mountain or you may bring your own bike. Helmets are required. Come meet the Cycling Club and enjoy a fun day of adrenaline-rush riding!

Business for Beginners – Are you a leader? Do you want a chance to network with students of all disciplines while gaining insight on the Clarkson experience? Are you interested in business or just want to know more about it? Do you want to gain valuable leadership and business experience to give you a competitive edge? If your answers are yes to any of these, come early and check out the Clarkson Collegiate Entrepreneurs' Organization (CEO) "Business for Beginners" pre-orientation trip. You will have the opportunity to get a jump-start on the next stage of your life, while learning what business and leadership are all about. Also, you will have the chance to forge friendships that can last the rest of your life. Don't miss out on this exciting experience. Come and see why Clarkson CEO is both one of the most respected organizations on campus, and the best of its kind nation-wide! Given our current 98% job placement rate you can't afford to miss it! Check us out at www.clarkson.edu/clubs/ceo.

Ultimate Frisbee Club Experience – The Ultimate Frisbee Pre-Orientation option allows incoming students to experience the game of Ultimate Frisbee no matter their skill level. During the day we play Ultimate Frisbee, teaching beginners the basics of the game and helping more advanced players hone their skills. We serve breakfast, lunch and dinner too!. Practices tend to be laid back but can be more intensive if participants choose. If time allows, we may teach participants out Frisbee games including Frisbee Golf.

WCKN Live Television Experience – WcKn channel 30 has been recording Clarkson activities and sporting events for the past 40 years. The TV station is completely student-run and has an audience base far outside of Clarkson's campus, reaching St. Lawrence County residents and the three other area colleges. In our pre-orientation program, students will learn the basics of television broadcasting and video production. Students who continue to stay involved in WcKn during the semester learn how to handle extensive wiring and electronic equipment. All majors are welcome and only a general interest in television is required to participate!

WTSC Live Radio Experience – A college radio station is a unique place on any campus and allows students to spread musical creativity throughout the surrounding community. If you love all genres of music and love telling your friends about new artists you have found outside the mainstream, then WTSC is the place to be. At this camp we will spend time showing you what independent music is all about and our role in the greater community. You will have the opportunity to do your very own radio show, learn how to record bands in our new production studio, and get a taste of what running a radio station is all about by reviewing new albums and repairing audio equipment. Check out our website at <http://radio.clarkson.edu>.
