

**Alpha Phi Omega Service Experience** - Alpha Phi Omega is an assembly of college students in a national service fraternity in the fellowship of principles derived from the Scout Oath and Law of the Boy Scouts of America. Alpha Phi Omega was created to develop leadership, to promote friendship, and to provide service to humanity; and to further the freedom that is our national, educational and intellectual heritage. Alpha Phi Omega would like to invite you to participate in a pre-orientation event of community service, fellowship, and friendship.

**Clarkson Integrator Newspaper Publishing Experience** - Interested in writing and photography? The Clarkson Integrator is the university's student-run newspaper that covers different aspects of college life: news, opinion, sports, and entertainment. Come meet current members of the staff and learn what goes into publishing a weekly paper. Layout, photography, and writing workshops will take place to show how all the pieces come together. Fun activities will be scheduled to get to know Clarkson and what it has to offer.

**Cycling Club Trip** – Join the Clarkson University Cycling Club as we explore the Adirondacks and the beautiful local scenery on two wheels! This trip will cater to both road and mountain bikers alike. When students arrive Tuesday, cycling club members will be there to help move everyone in and get them familiar with the campus. That night there will be a dinner prepared by the officers, followed by a bicycle film. All abilities and disciplines of cyclists are encouraged to join in! Wednesday we will be headed to a local trail network to do some road and trail riding. At noon we will all meet up to go for a swim, and have lunch (provided). That afternoon there will be mountain and road rides going out, with a clinic on proper trail building and maintenance. All day the officers will be taking photos and shooting video. Wednesday night a pasta dinner will be provided while we look over photos and video from the day. This is a great way to meet other students with a common interest, explore the area and get to know the campus!

**Business For Beginners** – Are you a leader? Do you want a chance to network with students of all disciplines while gaining insight on the Clarkson experience? Are you interested in business or just what to know more about it? Do you want to gain valuable leadership and business experience to give you a competitive edge over the other students? If your answers are yes to any of these, come early and check out the Clarkson Collegiate Entrepreneurs' Organization (CEO) "Business for Beginners" pre-orientation trip. You will have the opportunity to get a jump-start on the next stage of your life, while learning what business and leadership are all about. Also you will have the chance to forge friendships that can last the rest your life. Don't miss out on this exciting experience. Come and see why Clarkson CEO is both one of the most respected organizations on campus, and the best of its kind Nation-wide! Given our current 100% job placement rate you can't afford to miss it! Check us out at [www.clarkson.edu/clubs/ceo](http://www.clarkson.edu/clubs/ceo).

**Ultimate Frisbee Club Experience** – The ultimate Frisbee pre-orientation option allows for incoming students to experience the game of Ultimate Frisbee no matter what their skill level is. During the day we play Ultimate Frisbee, teaching beginners the basics of the game and helping more advanced players hone their skills. We serve breakfast, lunch, and dinner to the participants. Practices tend to be laid back, but can be more intensive if participants choose. If time allows, we may teach participants other Frisbee Games including Frisbee Golf.

**WTSC Live Radio Experience** – A college radio station is a unique place on any campus and allows students to spread musical creativity throughout the surrounding community. If you love music and love telling your friends about artists outside the mainstream, then WTSC is the place to be. During your WTSC pre-orientation experience you will do your own radio show, learn how to record bands in the production studio, and get a taste of what running a radio station is all about including reviewing new albums and repairing audio equipment. Visit our website at <http://radio.clarkson.edu>.
