

Employer Discovery Sessions

WHAT IS A DISCOVERY SESSION?

REAL LIFE DAY TO DAY

Provide discussions on what the day to day looks like in your line of work. What you look for in your employees. As well as the best part of working at your company.

COMPANY CULTURE

Offer information about company culture, work life balance, promotions and the impact your work has on the community/world.

Q & A'S

Share more about the opportunities and programs at your company. Ways to grow, philanthropy, and other unique elements. Answer a variety of student questions.

WHY OUR DISCOVERY SESSIONS ARE IMPACTFUL

Many times students don't know what to ask about a career field. This is an opportunity to not just speak about the openings you are trying to fill, but to engage students and share information that is important when making a career decision. This in turn can positively impact your hiring retention efforts to find "best fit" candidates!

HOW TO SIGN UP!

If you are interested in hosting a discovery session, you can contact our office at career@clarkson.edu or schedule one through Handshake.
