

Fall 2019 SAT Prep Course

Clarkson University

Saturdays, 10:00 a.m.– 12:00 p.m., Sept. 21st - Oct. 19th
Practice SAT – October 26th, 10:00 a.m. – 2:00 p.m.
Clarkson University, BH Snell Hall, Room 169
\$139 (Includes book and materials)

The SAT attempts to measure college readiness by assessing the knowledge and skills that a student will need to succeed in college and beyond. The redesigned SAT consists of evidence-based reading, writing, and math. The SAT is typically taken by high school juniors and seniors.

The SAT Prep Course is designed to raise student test scores. Our instructors will provide students with solid preparation in fundamental reasoning skills for all areas tested on the SAT.

The SAT Prep Course consists of six sessions that focus on evidence-based reading, writing and math. During the first session, students take a pretest and test-taking strategies are discussed. Subsequent sessions focus on each of the individual content areas. During the last session, a full-length practice SAT is given. Test scores are given to students along with the correct answers in order to help better prepare them for the actual test. Please see reverse side of this form for additional information about the SAT and what to expect from this course.

In order to register for the SAT Prep Course, mail form and payment to:

Test Preparation, Clarkson University, CU Box 5790, Potsdam, NY 13699-5790.

The registration deadline for the SAT Prep Course is **Tuesday, September 17, 2019.**

Questions? Call 268-3998 or e-mail testprep@clarkson.edu.

For fifteen years, we have prepared students for the SAT by not only teaching test taking strategies and techniques, but also ensuring that every student has a strong grasp of the academic concepts needed to do well on the test.

The textbook used with this course is the College Board's *The Official SAT Study Guide: 2019 Edition*. Additional materials will also be provided to students.

Throughout the SAT Prep Course, students will:

- Take portions of an official, retired SAT that will establish each individual student's starting benchmark.
- Know how the test is organized and what to expect.
- Use sample tests to practice the three core SAT math skills: algebra, problem solving and data analysis.
- Learn to demonstrate command of evidence and be tested on understanding relevant words and phrases.
- Learn essential test-taking strategies for each test section and question type.
- Analyze frequently tested concepts, question patterns, test structures, and scoring for each of the content areas.
- Reinforce strategies learned through interactive skill drills and multiple practice tests.
- Be introduced to the redesigned essay section and learn the skills necessary to complete that portion of the test.
- Take a final full-length SAT and receive results from the final practice test to prepare for the actual SAT.

The SAT has been redesigned!

The College Board made content, format, and scoring changes to the SAT in 2016. The redesigned SAT test prioritizes content that reflects the kind of reading and math students will encounter in college and their future work lives. The newly redesigned SAT was first administered in the spring of 2016.

The redesigned SAT is organized into four components: a Reading Test, a Writing and Language Test, a Math Test, and an Essay direct-writing task, which is optional.

To register for the SAT Prep Course, please complete the registration form found on the reverse side.

Upcoming SAT Dates: **November 2, 2019 and December 7, 2019**. In order to register for the SAT exam, please visit www.collegeboard.com in order to select your test date and test location.
