Clarkson University Scott Field
Visiting Team Guide 2021

Important Contact Information:
• Athletic Director: Scott Smalling (ssmallin@clarkson.edu)
• Senior Associate Athletic Director: Laurel Kane (lkane@clarkson.edu)
• Athletic Trainer: Max Knight (mknigh@clarkson.edu)
• Assistant SID: Tommy Szarka (tszark@clarkson.edu)
• Campus Safety: 315-268-6666
I. Introduction and Purpose

This document, along with Clarkson University and Scott Field Protocols/Standards 2021, outline the policies and procedures that must be adhered to in order for Clarkson University to host softball games in 2021.

Each institution visiting or playing at Scott Field must follow these guidelines and protocols as outlined in this document, as well as those that have been established by their own student body and by its respective conference for day-to-day operations.

While each institution will be required to uphold the standards of Clarkson University, their own student body and its respective conference, no policy or requirements shall supersede the requirements that are established by local, state, and federal health agencies.

II. Arriving at Scott Field

Please have someone in your travel party call or text Laurel Kane at 315-212-3387 ten minutes prior to your arrival to Scott Field.

The Visiting team bus is able to park in the lower Cheel parking lot.

In order to de-densify we ask that you don’t arrive earlier than two hours prior to game time.

Locker Rooms:

At this time we cannot guarantee a traditional locker room that will fit all of your players. We will be able to provide a space that players can change and use the restroom, but occupancy levels will be limited.

III. Testing/Symptom Checks

Individual Institutions will be required to have submitted a testing attestation form prior to their departure from their institution that attests that all tier 1 players and personnel have tested negative for COVID-19 within 72 hours if a PCR test was performed, or within 24 hours if an antigen test was performed of each contest.

Individual institutions will be responsible for making sure their travel party members complete a daily screening. A representative from the visiting team will be responsible for compiling and maintaining the results and will report any “yes” answers to the Laurel Kane at 315-212-3387 prior to arrival on site. Examples of daily screening questions include:

- Do you currently have a fever (temperature of 100.4 F or greater) without having taken any fever-reducing medications?
• Have you experienced any of the following COVID-19 related symptoms in the past 10 days: cough, shortness of breath or difficulty breathing, fever, chills, muscle pain, sore throat, new loss of taste or smell, nausea or vomiting and diarrhea?
• Have you tested positive for COVID-19 in the past 10 days, or have you been instructed by a healthcare professional/public health official/contact tracing app to self-isolate or quarantine?
• Have you knowingly been in close (within 6 feet) or proximate(same enclosed environment, such as an office, but greater than 6 feet) contact with anyone who has tested positive for COVID-19 or who has or had symptoms of COVID-19 within the past 10 days

If there is an individual that answers “yes” to any of the questions above, Senior Associate Athletic Director Laurel Kane must be notified at 315-212-3387. Laurel will advise at that point how to proceed.

IV. Inside Scott Field and Surrounding Areas

Face Masks:
All individuals at Snell Field and the surrounding locations are required to wear a CDC-recommended facial mask or covering at all times with the following exceptions:

- Student-athletes are not required to wear a CDC-recommended facial mask, covering during competition. They must wear a facial mask or covering anytime they are not on the field.
- Officials are not required to wear a CDC-recommended facial mask, covering during the actual play. However, they must wear CDC-recommended face covering during pre-game and when talking with coaches, players or other officials during competition.
- CDC-recommended facial masks may be removed while eating or drinking if physical distancing is maintained. Such masks or coverings must be immediately replaced once finished.

Post Game Meals:
Please have any post game meals delivered to your bus. If available we will try to find a space on campus to eat the meal, but it is not guaranteed that appropriate space will be available. If a space is available, all meals consumed inside will have to be single serve. No buffet meals are allowed on Clarkson University Campus.

IV. Cleaning and Sanitation
All areas of Scott Field will be properly disinfected by Clarkson University staff on a daily basis. Cleaning crews will properly clean and disinfect all surfaces and areas which come into contact with student-athletes within the confines of the locker room on a daily basis.

Facility cleaning crews are responsible for all aspects of cleaning and disinfecting, including trash disposal, the vacuuming of rugs, mopping of the floor, and specifically:
● Locker stalls, including seats and all areas of the stall
● Change room stalls
● Bathrooms, including washroom stalls, toilets, and urinals
● Showers
● Medical/training tables
● Doorknobs, tables, counters, and other “high touch” surfaces
● Bench areas

To clean these areas, Clarkson University will use detergent-based cleaners or EPA registered detergents/disinfectants that will remove bacteria like MRSA from surfaces and kill common viruses like mumps, measles, cold, coronavirus and influenza viruses.

**Sports Medicine:**

Emergency Action Plans are provided in the athletic training rooms. If you have any questions or requests in addition to the COVID standard, please contact Max Knight, DAT, LAT, ATC for Softball, Mknight@clarkson.edu
