

Hudson STEAM

Field trips and In-Class Visits

Who: Students in grades 4-8 from Hudson Valley schools

What: Hands-on experiential STEAM learning with our science and arts education team. Build student understanding of the natural environment, and authentic connections to the local Hudson River Valley, through our place-based learning approach.

Where: Clarkson's Beacon Institute, in Denning's Point State Park, 199 Denning's Avenue, Beacon, NY

Hudson River Studies

Water Ecology Center on Dennings Point

Biology and Behavior with our live animals
